

Krones Valve Lever Kit—Bottle Filling Line

Notable Features and Benefits

- ✔ SS Seal w/ O'Ring eliminates valve jamming failures caused by chipping of the Ceramic Seal
- ✔ Sold as Rebuild Kit to save \$100's when needing to replace vs OEM new Valve Lever replacement
- ✔ All parts are Food Grade non toxic
- ✔ Rebuild the Valve Lever in minutes at 10% the cost of a new OEM replacement Lever.

Product Description

Rebuild parts meet OEM specifications with improved reliability and durability

Available in various rebuild kit BOMs to meet your needs

Eliminates the OEM Ceramic Seal with durable SS Seal and O'Ring design

Product Function

This rebuild kit has designed out a problematic failure mode of the OEM Ceramic Seal. The OEM seal can chip during operation allowing the chip to jam the mechanism and need to be replaced.

Use the Rebuild kit to improve reliability and regain the filling line performance as expected. All at a fraction of the cost of a replacement Valve Lever from the OEM

Old ————— \$55 —————> New Rebuilt
